PROFESSIONAL EXPERIENCE

Frontend Developer, Shypmax

Jan 2023 – present

- Worked on a warehouse app panel with the development team where we stored the inventory which reduced the workforce by 60%
- Designing page layout and developing user interaction screens using ReactJS, HTML, CSS, and Bootstrap, and adding dynamic functionality to each module
- Implemented a comprehensive inventory shipment pipeline, resulting in a 30% increase in overall operational efficiency.
- Managed the integration of the application on both admin and manager level
- Collaborated closely with the development and testing teams, and actively participated in design and code reviews to drive continuous improvement and ensure codebase integrity resulting in overall improved software quality.
- **Tech Stack:** ReactJS, MySQL, HTML, CSS, SCSS, Bootstrap, Redux Toolkit, NodeJS

System Engineer, Infosys

Aug 2021 – Jan 2023

- Part of the team of CITI Bank Project where I worked on Project Management Webapp
- Architected and built reusable and efficient modules and components for the front end, resulting in a 30% reduction in development time and improved code maintainability.
- Increased code reusability by 30% by developing custom components for input elements using react hook form
- Revamped website flows and navigation menus by fixing the necessary bugs which resulted in 15% increase in performance
- Developed a suite of document upload features for project management scenarios, resulting in the reduction of manual data entry tasks and time-saving of 10 hours per week.
- Following agile & scrum methodology for the development of the product and working in cross-functional teams from requirements gathering to releasing to production
- **Tech Stack:** ReactJS, HTML, CSS, Styled Components, Javascript, Redux, SCSS, MySQL
