## PROFESSIONAL SUMMARY

---

Frontend Developer with over 2 years of experience in building responsive and user-friendly web applications. Proficient in modern frontend technologies, including React.js, HTML5, CSS3, and JavaScript, with expertise in crafting intuitive user interfaces and delivering seamless user experiences. Skilled in performance optimization, cross-browser compatibility, and integrating RESTful APIs to ensure functionality across platforms. Experienced in collaborating within Agile teams to deliver high-quality solutions that meet business objectives. Committed to staying updated with the latest industry trends and leveraging creativity and technical expertise to enhance user engagement. Flexible to relocate as needed.

## PROFESSIONAL EXPERIENCE

---

**Frontend Developer** | Shilpra Web Technologies Pvt Ltd, Pune | August 2022 – Present

- Designed and implemented responsive web applications using React.js, HTML5, CSS3, and JavaScript to create engaging user interfaces while optimizing website performance, achieving a 30% reduction in load times.
- Integrated RESTful APIs to ensure seamless communication between the frontend and backend systems, collaborating closely with backend developers and designers in an Agile environment to deliver scalable, user-focused solutions.
- Enhanced functionality by implementing third-party tools and services, including Google Maps, payment gateways, and form validations, while conducting code reviews and debugging to maintain high-quality, maintainable code.
- Delivered multiple client projects on time, ensuring optimal performance and responsiveness across various devices and platforms.

## EDUCATION

---

### 1. Master of Computer Applications (MCA)

- Sage University, Indore
- CGPA: 7.7
- Aug 2022 – July 2024

### 2. Bachelor of Computer Applications (BCA)

- Devi Ahilya Vishwavidyalaya, Indore
- CGPA: 7.7
- Sept 2019 – July 2022

## TECHNICAL SKILLS

---

- **Frontend Development:** React.js, HTML5, CSS3, JavaScript, Redux Toolkit, Bootstrap, Tailwind CSS, Ant Design
- **Backend Development:** Python, Django
- **Database Management:** MySQL
- **API Integration:** RESTful APIs, Google Maps API
- **Development Tools:** Git, Agile Workflow, VS Code
- **AI Tools:** ChatGPT, Gemini

## PROJECTS

---

- **Penny Lane Emporium:**  
Developed a robust e-commerce platform for a leading retail brand, focusing on enhancing user experience and driving sales. Key features include a comprehensive product catalog, secure payment gateways, and real-time inventory tracking. Implemented a responsive design to ensure accessibility across all devices, contributing to a 20% increase in mobile sales. (Technologies: React.js, Django, MySQL, RESTful APIs)
- **Yas Island:**  
Contributed to the development of an interactive tourism website for a major destination in the UAE. Designed engaging multimedia elements and interactive maps to guide users through attractions and events. The site's enhanced interactivity and seamless navigation led to a 30% increase in user engagement. (React.js, Python, Google Maps API, CSS3.)
- **Varma Homes:**  
Designed and implemented the frontend for a real estate website, focusing on creating an intuitive property search experience. Developed customer inquiry forms, integrated Google Maps for location services, and optimized the site for search engines (SEO), resulting in improved visibility and user traffic. (Technologies: React.js, Django, MySQL, Google Maps API)
- **Kings Cross:**  
Worked on building a dynamic and responsive website for a major commercial hub. Focused on integrating multimedia content, including video tours and image galleries, and ensuring compatibility across various devices and browsers. The project's success was marked by a significant increase in user interaction and feedback. (Technologies: React.js, Python, Bootstrap)
- **AGS Movers:**  
Developed a global relocation service platform, emphasizing user accessibility and internationalization. Created features like a multilingual interface, custom forms for moving quotes, and integration with Google Maps. These enhancements improved user satisfaction and led to a notable increase in service inquiries. (Technologies: Django, React.js, Google Maps API)
- **Lionsgate:**  
Contributed to the creation of a sleek and modern entertainment platform for a leading film studio. Focused on optimizing content delivery, integrating social media feeds, and ensuring a consistent user experience across all devices. The platform's improved design and functionality attracted a larger. (Technologies: React.js, Django, AWS)
