Professional Summary

I am a dedicated and skilled software developer with 2 years and seven months of hands-on experience in creating dynamic and user-friendly web applications. My expertise lies in front-end development, particularly in Angular, Ionic, HTML, CSS, Bootstrap, and JavaScript. I have successfully translated design concepts into fully functional and responsive interfaces, enhancing user experiences and driving engagement.

Technical Profile

Front-End: HTML, CSS, Bootstrap, Javascript, AJAX,JQuery
Frameworks:Angular,Ionic
Server-Side:-Node.js
Templating and Dynamic Content:-Handlebars
Database:-MongoDB
Version Control:-Gitlab
Remote Server Management:-WinSCP,PuTTY

Project & Experience

November 2023 - Current
3i Infotech Ltd. - Noida, India
Software Engineer-Angular Developer
Rajasthan Pollution Control Board (Integrated E-Governance Solution 2.0)

- Developing and implementing user-friendly interfaces using Angular framework for the Rajasthan Pollution Control Board project.(Integrated E-Governance Solution 2.0)
- Designing and creating responsive web designs adhering to industry best practices, ensuring optimal user experience across devices.
- Integrating APIs effectively, enabling seamless data exchange and enhancing the functionality of the pollution control application.
- Collaborating closely with the project team to understand requirements, contributing innovative ideas to improve UI/UX and overall application performance.

August 2021 - November 2023
Foxaisr Technology Private Limited - Indore, India
Software Developer
Simple Shiksha-E-Learning Platform

- Led the creation of an innovative e-learning platform, "Simple Shiksha," enabling live interactions between teachers and students.
- Developed feature-rich web panels for administrators, students, and teachers, leveraging Angular technology. Expanded platform access with user-friendly mobile apps created using the Ionic framework.
- Enhanced platform responsiveness by building robust RESTful APIs with Node.js, ensuring a smooth and engaging learning journey.

Shoot - Dynamic Photographer Booking Ecosystem

- Contributed to the development of Shoot, a photography platform enabling event attendees to book photographers.
- Led backend development efforts utilizing Node.js to enhance platform functionality.
- Designed and implemented a user-friendly mobile application using Ionic, facilitating seamless photographer bookings.

Assist Buddi - AI-Driven Customer Support Application

- Responsible for the frontend development of the application.
- Utilized Angular framework for building the user interface and frontend components.
- Collaborated with the development team to design and implement interactive and user-friendly features.
- Played a key role in enhancing the user experience by creating responsive and visually appealing designs.

RoboNegotiator

- Developed "RoboNegotiator," a US-centric car buying and selling application that offers a comprehensive platform for both new and used cars.
- Implemented the frontend of the application, focusing on user interface and interactive components.
- Utilized Angular framework to design and build engaging and responsive web interfaces.

Picxele:Perform Tasks & Earn

- It is the platform for Gig Workers, Freelancers, Students, and professionals to earn money by completing a variety of tasks, selling financial products,honing skills through exciting projects and enjoying exclusive offers from top brands.
- Developed a mobile application using Ionic framework.
- Integrated various APIs for functionalities and applied various plugins such as camera,social media sharing, photoview and so on.

Internship

January 2021 - July 2021
Trainee - Indore, India
Software Developer Intern

- Executed multiple client projects involving diverse skill sets.
- Proficiently utilized web technologies: HTML, CSS, Bootstrap, and JavaScript.
- Developed responsive and visually appealing web interfaces using HTML and CSS.
- Leveraged Bootstrap framework for streamlined and consistent design.
- Implemented interactive and dynamic features with JavaScript.
- Constructed Android applications utilizing the Ionic application framework.
- Employed Angular JavaScript framework for enhanced functionality and user experience.
- Assisted with testing of client-server network components.

Education

May 2017 - May 2021
Sangam University Bhilwara
Bachelor's of Technology in Computer Science
Computer Science Engineering: 9.1 CGPA

April 2016 – March 2017
A'S Steward Morris Sr. Sec. School Bhilwara
PCM/Physical Education:75%

April 2014 – March 2015
A'S Steward Morris Sr. Sec. School Bhilwara
8.4 CGPA

Awards

- Awarded Silver medal for securing first position in the B.Tech CS from the Sangam University.(07/2017–07/2021)
- University Certificates

Languages:– English and Hindi
