Portfolio-portfolio-somendra-ruddy.vercel.app/

Result oriented professional with **3+ years** of experieince; targeting challenging assignments in **Software Development** with an organization of repute

SUMMARY

- Supervised and translated business requirements to Functional requirements, Non-Functional requirements, System Level requirements, Component Level requirements and architecture
- Forward-focused Manager with expertise in concepts of end-to-end project planning & implementation from scope management, to activity sequencing, effort & cost estimation, risk analysis to quality management in line within guidelines and norms
- Mapped clients' requirements & assisting them with best solutions involving evaluation & definition of scope of project and finalization of project requirements
- Possess knowledge & understanding of DSA with Java Script, deploying Applications/Websites with Heroku & Render Deployment
- Qualitative experience in estimation, planning, reporting, implementation of quality processes, overall test delivery & requirement gathering
- Possess insightful knowledge on directing activities like Requirement Gathering and Analysis, Design, Development, Testing, Implementation, Production support and Knowledge Transitioning
- Proficiency in JavaScript and TypeScript including DOM manipulation.
- Knowledge of functional and object-oriented programming in JS/TS
- Knowledge of React JS and its core principles
- Experience with HTML, CSS, ECMAScript (ES6), Restful APIs (application programming interfaces), etc.
- .Experience with common front-end development tools such as babel, Webpack, NPM, Yarn, etc.

Core Competencies

Software Development	Full Stack Development	Front End Development
React Developer Analysis	JavaScript Development	System Integration Testing
Framework Defect Resolution	Daily Status Report	Project Management
Requirement Gathering	Quality Assurance	Relationship Management
Estimation and Costing	Resource Utilization	User Acceptance Testing

EXPERIENCE DETAILS

Jan'24 – Aug'24:   **Frontend Developer with Screen Magic Mobile Media Pvt. Ltd., Pune**

Dec'22 – Dec'23:   **Software Developer with Brandconn Digital Group, Delhi,Hybrid**

Sep'21 – Dec'22:   **Software Engineer with Mphasis Ltd., Bangalore,Remote**

Key Highlights

- Developing software solutions by conferring with users, studying information needs, and systems flow, data usage and work processes; debugging the algorithm simulation to identify the failures and defining the test equipment to measure the performance of the products
- Analyzing existing codebases and recommend refactoring / optimization to enhance stability and maintenance
- Providing technical design solutions and leading a team for ensuring effective management of UI are aligned with business objectives
- Strong proficiency in JavaScript, including DOM manipulation and the JavaScript Object Model.
- Thorough understanding of React Js and its core principles.
- Experience with popular React JS workflows (such as Redux)
- Experience with data structure libraries (e. g., Immutable.js)
- Knowledge of Isomorphic React, Server Side Rendering, Chunk Splitting, etc.
- Assisting in determining operational feasibility through analysis, problem definition, requirement analysis, and proposing solutions
- Enhancing modules delivered to production by rewriting and developing new code to improve the efficiency and effectiveness of system; initiating and developing relationships with key decision makers in target organizations for business development
- Creating and managing the estimates, project plan, project schedule, resource allocation and expenses to ensure that targets were reached; driving efforts towards maintaining software development practices; adhered to company standards for coding and unit/functional test coverage

Education

2021:   B.Tech (CSE) from Jaypee University of Engineering & Technology, Guna

Technical Skills:

C, C++, Java (FHIR), HTML, CSS3, Bootstrap, Tailwind CSS, OOPS, Python, SQL, DBMS, Data Structure, Postgres SQL, JavaScript, React, Dialogflow, DevOps Tools and Git, TFS, Jenkins Azure, Dev Ops, Springboot, Microsoft Bot ,GitLab,CICD,TypeScript

CERTIFICATES
- Completed Front-End Web UI Frameworks & Tools: Bootstrap
- Front-End Web Development with React Certification from Coursera in 2020
- 2 Runner up in google Hackthon
- Achieved Problem-Solving Challenge Certification in 2020 from Hackerank

PROJECTS HANDLED
Project: **MTH**
Company: Mphasis Limited
Tools Used: NodeJs, Express, FHIR, ReactJs, Redux, Spring Boot) -Developing new user- facing features using React.js
Learning:
- Building reusable function components and front-end libraries for future use
- Worked in using React.Js Components,Form,eventKey,Routes,Redux · Translating designs and wireframes into high quality code
- Optimizing components for maximum performance across a vast array of web-capable devices and browsers · Experience with popular React.js workflows (such as Flux or Redux
Description:
- A Healthcare Platform on top of FHIR Servers (Worked on integration of the application with FHIR servers). Developed application to work with different FHIR servers. Designed, implemented and supported various system /data integration initiatives for FHIR.

Project: **Cognitive Guru (CG)**
Company: Mphasis Limited
Tools Used: NodeJs, Microsoft Bot framework, Luis, Spring Boot
Description:
- Generic Chatbot Development Platform for Enterprises (Developed 50 + Chatbot use cases)
- Developed chat-bot use cases for domains like Service Desk, Human Resources, Insurance, Social, Airlines, Government, and Banking Joint Application

Project: **Cricket Weapon**
Company: Brandconn Digital Group
Tools Used: NodeJs, Express, FHIR, ReactJs, Redux, Spring Boot) -Developing new user- facing features using React.js
Learning: Designed & implemented Architecture solutions; contributed in all phases of the development lifecycle
Description:
- Cricket Weapon, an e-commerce shopping app built using the MERN (MongoDB, Express, React, Node.js) stack and Tailwind CSS for the user interface. This project provides both normal user and admin modes

Project: **Zoho CRM Tool**
Company: Screen Magic Mobile Media Pvt Ltd.
Tools Used: NodeJs, ReactJs, Redux, TypeScript,Hooks,API's integration) -Developing new user- facing features using React.js
Learning: Designed & implemented Architecture solutions; contributed in all phases of the development lifecycle
Description:
- SMS-Magic is a highly-rated Zoho app for all your customer-messaging needs. Install SMS-Magic to communicate with your customers on the channel of their choice - while you stay in the comfort of your Zoho window or smartphone. SMS-Magic is perfect for high-touch, contextual, and time-sensitive customer engagement that is fully compliant.
