## PROFESSIONAL SUMMARY

---

Dynamic and results-oriented Java Developer with three years of professional experience in designing, developing, and maintaining high-performance software applications. Proficient in Java technologies, frameworks, and tools, with a strong commitment to continuous learning and innovation. Seeking to leverage expertise in Java development to contribute to the success of a forward-thinking organization.

## WORK EXPERIENCE

---

### Software Engineer

Oct 2020 - July 2023

Striim.com | Chennai, TN

- Designed and developed web applications using Java, SpringBoot, and JPA/Hibernate frameworks, resulting in improved performance and user experience.
- Implemented RESTful APIs to facilitate communication between frontend and backend systems, ensuring seamless data exchange.
- Collaborated with cross-functional teams to gather requirements, define project scope, and deliver solutions on time and within budget.
- Conducted code reviews and performed unit testing using Junit to ensure code quality and adherence to coding standards.
- Worked extensively with CDC adapters for real-time data migration across multiple databases including Oracle, MySQL, MSSQL, PostgreSQL, and MariaDB.
- Maintained and optimized database performance by writing efficient SQL queries and performing database tuning.
- Developed and maintained scalable, reliable, and efficient backend systems using Java, Spring Boot, and Hibernate frameworks.
- Utilized Agile methodologies to participate in sprint planning, daily stand-ups, and sprint retrospectives, fostering a collaborative and iterative development environment.
- Actively engaged in continuous learning and professional development, staying abreast of emerging technologies and industry trends to enhance skills and expertise.

### Software Engineer Intern - Java

Jan 2020 - June 2020

SoluLab.com | Ahmedabad, India

- Developed and maintained Java applications under the supervision of senior developers.
- Participated in the design and implementation of software solutions based on project requirements.
- Assisted in debugging and troubleshooting issues in the existing codebase.
- Collaborated with team members to ensure code quality and adherence to coding standards.
- Conducted code reviews and provided constructive feedback to peers.
- Researched and learned new technologies and programming techniques to enhance skills and knowledge.

- Get a chance to work on Salesforce, Create different Salesforce applications, learn Apex, VisualForce, Soql, Rest, Heroku.

## EDUCATION

---

**Master in Computer Application (M.C.A) - Computer Science**  
Pondicherry Central University, Puducherry (India)

2017 - 2020

**Bachelor in Computer Application (B.C.A)**  
Bihar University Muzaffarpur, Bihar (India)

2012 - 2016

## PROJECTS

---

### **Striim (Data migration software) :**

During my tenure at Striim.com, I had the opportunity to work extensively with Striim's data migration software, which played a pivotal role in seamlessly transferring critical data between disparate systems. Leveraging Striim's real-time data integration capabilities, I collaborated with cross-functional teams to design and implement efficient migration strategies tailored to the unique requirements of our clients. This involved configuring data pipelines, ensuring data quality and integrity throughout the migration process, and optimizing performance to meet stringent timelines. Through hands-on experience with Striim, I gained proficiency in streamlining data migration workflows, mitigating risks associated with data loss or downtime, and delivering successful outcomes for our clients across various industries like Airtel, Ford, DiscoveryHealth, Orange, Tata, Ciena.

### **E-commerce Website :**

Developed a fully functional e-commerce website using Java, SpringBoot, and MySQL, allowing users to browse products, add items to cart, and complete transactions securely.

### **Employee Management System :**

Designed and implemented an employee management system using Java, Servlets, and JSP, enabling HR departments to manage employee records efficiently.

## SKILLS

---

Java | Spring | SpringBoot | Hibernate | JPA | OOPS | MicroServices | JSP | CI/CD | Git | Jenkins | SQL | DBMS | Salesforce | Goldengate | Backend Development | RESTful API | Linux | Project Management | Leadership | Time Management | Adaptability | Problem Solving | PL/SQL | Oracle | MySQL | Troubleshooting | MongoDB | AWS | IntelliJ IDEA | Eclipse | Maven |

## ADDITIONAL INFORMATION

---

- Strong problem-solving skills demonstrated through successful completion of various projects.
- Excellent communication and collaboration abilities, proven through effective teamwork and participation in cross-functional meetings.
- Proficient in C, C++, Java, with knowledge of SpringBoot and Rest Services.
- Excellent knowledge of Object Oriented Programming (OOPS) concept.
- Experience in end to end data migration (Homogeneous and Heterogeneous).
- Quick learner with a passion for technology and innovation.
