EXPERIENCE

Oodles Technologies   **Dec 2023 – Present**
FullStack Developer (MERN tech stack & React-Native)   *Gurgoan / Gurugram , India*
Position of Responsibilities :-
- Developed and maintained scalable backend services using Node.js and Express.js & Managed data storage solution using MongoDB.
- Designed and implemented RESTful APIs and integrated third-party services.
- Developed responsive and user-friendly interfaces for both website and mobile applications.
- Worked closely with cross-functional teams, including developers and designers, to thoroughly understand client requirements and deliver well-executed, high-quality solution.
- Integrated third-party APIs (e.g., Google Maps API, Firebase, Payment gateway (Stripe), etc) to enhance website and mobile app functionality, such as location-based services, real-time data synchronization & etc.
- Executed performance optimization initiatives and directed the debugging process, effectively resolving project issues and achieving a 40% reduction in website load times.

NGOGURU PVT. LTD.   **Sep-2023 – Oct-2023**
FullStack Developer (MERN tech stack)   *Delhi, India*
Position of Responsibilities :-
- Developed full-stack web projects from concept to deployment using the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Created dynamic and interactive user interfaces using React.js, leveraging state management libraries like Redux for complex data flow.
- Designed and implemented RESTful APIs for seamless communication between the frontend and backend using Node.js and Express.js.
- Utilized MongoDB database, designed schemas, and implemented CRUD operations to managed application.

TECHNICAL SKILLS

Programming Languages: C++, JavaScript, Python(Beginners), SQL, NoSQL
Problem Solving: DataStructure & Algorithim, OOPs
Technologies/Frameworks: ReactJS, NextJS, ReactNative, Redux, NodeJS, ExpressJS, MongoDB
Developer Tools: VS Code, Android Studio, Xcode, Git, GitHub, GitLab
Languages: English, Hindi, Communication-Skills

EDUCATION

NSUT East Campus formerly AIACTR, DELHI   **AUG 2019 – JULY 2023**
B.tech(Bachelor of Technology)   ***8.4-CGPA***

PROJECTS

Bookmyhelp (Mobile & Web application) :-
Developed both mobile and web applications designed to connect users with service providers for a wide range of services and assistance.
Technologies Used:- ReactJS, React-Native, Axios, Firebase, Google API, Payment gateway, etc.

Helper by Bookmyhelp (Mobile application) :-
Developed a mobile application designed to enable service providers to connect with potential clients and offer various services and assistance.
Technologies Used:- React-Native, Axios, Firebase, Google API, Payment gateway, etc.

Master DataManagement System (MERN stack web application):-
User can upload large CSV files, filter and group data, create views and perform more operation & after that export processed data as downloadable CSV files.
Technologies Used:- HTML, CSS, Javascript, React.js, Axios, NodeJS, ExpressJs, MongoDB, AWS Bucket.
