EXPERIENCE

CLEVDOC | Associate Software Developer
Nov 2023 – Present | Gurgaon, Haryana

- Developed responsive and reusable UI components using React.js, Redux, and JavaScript, improving user experience and maintainability.
- Optimized performance, reducing page load time by 30% and integrated RESTful APIs for real-time data updates.
- Collaborated with UX/UI designers to enhance accessibility and worked in Agile teams, actively participating in standups and code reviews.
- Ensured application stability with unit testing (Jest, React Testing Library) and debugging to maintain high code quality.

KIWITECH | Software Engineer Trainee
Dec 2022 – Aug 2023 | Noida, Uttar Pradesh

- Worked with the ML team to integrate real-time JSON data visualization, implementing interactive charts using ApexCharts/chart.js for better insights.
- Collaborated closely with UX/UI designers to ensure accessibility and seamless user experience across devices.
- Worked in an Agile development environment, participating in standups, sprint planning, and peer code reviews.

PROJECTS

CLEVDOC (BANKING,CMS) | Loan Recovery System

- Designed and Developed a high-performance, responsive Clevdoc Banking Platform, a loan recovery solution aimed at enhancing communication and processes between banks and borrowers.
- Developed a comprehensive Banking CMS Platform to efficiently manage and organize data for both banks and borrowers, ensuring seamless operations and data integrity.
- Streamlined interactions by serving as an intermediary platform, improving efficiency for both parties involved.
- Optimized state management with Redux Toolkit, enabling efficient component communication and ensuring application stability through comprehensive testing with Jest.

VOICEKIT | Emotion Analyzer

- Collaborated as a Frontend Developer with a focus on React JS in the development of VoiceKit, a product utilizing Machine Learning to analyze emotions within audio.
- • Integrated extract emotion data by Machine Learning models, which was then visualized through the creation of Scatter and Bar Charts.
- Enhanced user experience by implementing a range of features, including audio uploading, an audio player, PDF download capabilities, and Date Picker filter.

EDUCATION

DR. A.P.J. ABDUL KALAM TECHNICAL UNIVERSITY, LUCKNOW
BTech in Computer Science and Engineering
Session: May 2019 - Jul 2023
CGPA: 7.1 / 10.0

CHOKHRAJ TULSYAN SARSWATI VIDYA MANDIR INTER COLLEGE, GORAKHPUR
class 12th
Session: Mar 2018 - Mar 2019
Percentage: 71

SKILLS

LANGUAGE
JavaScript •Java •TypeScript •HTML5 •CSS3

TECHNOLOGIES
React • Redux • Next JS • Flux • REST APIs • MongoDB • Tailwind

TOOLS
VSCode • GitBash • IntelliJ • Postman • Notepad++ • JIRA • Agile methodologies

INTEREST

- Travelling • Problem Solving
- Basketball • Badminton
- Finance

ACHIEVEMENTS

React certification, Udemy
Solved more than 100+ problems on multiple Coding Platforms like CodingNinja, Leetcode etc.
