Competitions

INTER- COLLEGE LEVEL
College level project
📅 Apr 2021 – Aug 2021 📍 Shimoga, Karnataka
- I had made one android application name Covid-19 Vaccine tracker. I made pages like slot availability and show cases,
- I have taken the API from the government website and just put it in the new folder and called it in the page of slot availability and show cases.
- By using the API every data were fetched successfully and were showing recovered to infected person all over India correctly.

Recent Projects   MARKETPLACE NEW

📅 July 2023 – October 2023 📍 Mohali

Marketplace New was the project made for specifically Admin and Client, where they can buy products , accept the proposal, reject the proposal. Here admin have all list who have registered, have permission to edit and delete. CRUD was performed by Admin Side

JC SOFTWARE SOLUTIONS OFFICIAL PAGE

📅 September2023 – October 2023 📍 Mohali

Two local host were running first for admin and second for front end, Admin can change the data image, description, meta description, and in front end Apart from these 2 project I also worked on:- Lens and friends, Audible new,Fundraising
