Apr 2016 - Mar 2017

Guru Tegh Bahadur Public School (CBSE), Meerut

Percentage: 81%

PROJECTS

Tweeter Clone

Developed a fully functional working clone of the Tweeter web with features like signup, login, image upload, edit profile , posting tweets etc using technologies : HTML,CSS , JS , PHP , MySQL.

E-commerce website using MERN Stack

Developed a fully functional and responsive E-commerce website utilizing the MERN stack. Implemented user authentication for seamless login and signup processes, incorporated a dynamic cart system for product selection, and organized product listings with separate pages for Men, Women, and Kids. Additionally, created a New Collections page to highlight latest offerings. Introduced an admin panel enabling easy management of product inventory, including addition, removal, and viewing of products on the website.

Power BI Dashboard: Data Visualization and Analysis

Created a Microsoft Power BI dashboard for a bicycle company, showcasing sales data through interactive charts and graphs. Implemented data integration, and dynamic visualizations to inform strategic decision-making and drive business growth.

Electoral Voting system using AWS.

Developed a web-based electoral voting system utilizing HTML, PHP, Bootstrap for frontend, AWS for hosting, and phpMyAdmin for database management, ensuring secure and efficient online voting processes.

Simon game

Developed a Simon game using HTML, CSS, and JavaScript, showcasing skills in front-end web development, user interface design, and interactive programming.
