EXPERIENCE

Software developer

SearchingYard Software Group

05/2023 - 09/2024 Bhubaneswar

- Proficient in developing frontend applications using React, Redux, Next.js, and TypeScript, while leveraging Tailwind CSS for efficient and responsive UI development
- Ensures high performance, scalability, and reliability in frontend systems
- Directly collaborated with clients to meticulously comprehend their project objectives, translating their vision into impactful front-end solutions
- Collaborated seamlessly with a cross-functional team of developers to design and implement, enhancing various front-end features of the platform
- Debugged and resolved issues reported by users, improving the overall user experience

Front-End Developer

ThinkZy Tech

08/2022 - 03/2023 Jaipur

- Spearheaded complete project lifecycles, from ideation to deployment, ensuring seamless execution and delivery.
- Developed reusable and efficient React.js components, enhancing code maintainability and scalability.
- Worked closely with cross-functional teams, including UI/UX designers, backend developers, and QA engineers, to ensure high-quality deliverables.
- Integrated RESTful APIs, enabling dynamic and responsive data interactions in web applications.
- Enhanced application performance through code optimization, lazy loading, and effective use of React hooks.

EDUCATION

MCA

Dr. BV. Hire College of management & research Center

04/2020 - 04/2022 Nashik (Pune University)

- Specialization in computer Science

B.Sc (Comp.Science)

M.S.G Arts science & commerce college Malegaon Nashik (Pune University)

Malegaon, Nashik (Pune University)

PROJECTS

Dynamic Sports Fantasy (Bettigo)

Bhubaneshwar, India

TechStack :- react, redux , tailwind css , typescript ,apex charts, material Ui , Api integration

- Led the development of **Bettigo's Dynamic Sports Fantasy Admin Panel**, creating an innovative platform that revolutionized sports fantasy administration.
- Enhanced platform performance by **70%**, ensuring smooth, responsive user interactions and efficient data management.
- Delivered a **game-changing solution** that elevated Bettigo's standing in the industry, offering a seamless and efficient administration experience.
- Delivered a **game-changing solution** that elevated Bettigo's standing in the industry, offering a seamless and efficient administration experience.

Affiliate Marketing site (WinWadi)

Bhubaneshwar, India

Front-end tech stack :-Next js,TypeScript, Tailwindcss, material Ui, apex chart, Framer motion, zustand, formik.

- Spearheaded the creation of **Winwadi**, a powerful affiliate marketing platform designed to seamlessly connect advertisers with promoters.
- Successfully improved **code performance by 50%**, optimizing the platform for faster loading times and smoother user experiences.
- Oversaw the creation of three pivotal panel **Advertiser, Promoter, and Admin** ensuring seamless API integration and **subscription-based** model (monthly/yearly).

SUMMARY

SOFTWARE DEVELOPER Experienced Front-End Developer skilled in creating robust web applications. Proficient in Next.js, React, React Native, Redux, JavaScript, and TypeScript. Strong expertise in building full-stack solutions, implementing efficient database structures, and developing responsive user interfaces. Demonstrated ability to solve complex problems and collaborate effectively within development teams to deliver high-quality applications.

SKILLS

React.js	Next.js	React Native	CSS3
HTML5	Typescript	JavaScript	
Redux-Toolkit	Material Ui	Git	Redux
SASS	Github	Chakra Ui	Bulma.Css
Bootstrap	Tailwind CSS	Data Structures	
Docker	Postman	Firebase	AWS
Api Integration	SWR		

KEY ACHIEVEMENTS

-  **Enhanced Platform Performance**
Increased platform performance by 70% using modern technologies.
-  **Boosted Code Efficiency**
Improved code efficiency by 50% for faster load times.
-  **Client Collaboration Success**
Collaborated with clients to ensure seamless front-end solutions.
