Experience

XenelSoft Technologies Pvt Ltd

Front End Developer | HTML Developer | React Developer, Noida, India
09/2024 - Present

Project Link : [XenelSoft Technologies](#)

I have redesigned my company's website to enhance its functionality, user experience, and visual appeal. The site serves as an all-in-one technology partner, offering web, mobile, and custom software solutions that meet industry standards. This redesign ensures a seamless, modern, and responsive platform that strengthens our online presence and improves client engagement.

Responsibilities:

- **UI/UX Redesign:** Created a modern, intuitive, and responsive interface.
- **Performance Optimization:** Improved website speed, accessibility, and SEO.
- **Content Structuring:** Organized services, client testimonials, and project showcases for better navigation.
- **Mobile & Cross-Browser Compatibility:** Ensured seamless functionality across devices and browsers.
- **Integration & Maintenance:** Implemented necessary features, bug fixes, and future scalability improvements.

Project Link : [Qes Safety](#)

QES Consultancy, a top consulting firm in Singapore, provides business consultancy, training solutions, project management, and audit services. To enhance its online presence, the website is undergoing maintenance and improvements for better functionality, user engagement, and content clarity.

Responsibilities:

- **Website Optimization:** Improve UI/UX, loading speed, and navigation.
- **Content Enhancement:** Update service offerings, case studies, and client testimonials.
- **SEO & Performance:** Optimize for search engines and ensure mobile responsiveness.
- **New Pages:** Add sections for insights, industry trends, and success stories.
- **Security & Maintenance:** Implement updates for security and scalability.

Project Link : [ByzFlex](#)

ByzFlex provides flexible financing solutions to help small and mid-sized businesses grow. As a ByzFunder subsidiary, it offers Revenue-Based Financing, allowing businesses to access capital and repay based on their revenue flow. This ensures financial flexibility without the constraints of traditional loans.

Responsibilities :

- Design a user-friendly interface that simplifies navigation and highlights financing options clearly.
- Implement responsive layouts to ensure seamless access across all devices.
- Integrate real-time updates and notifications for financing status and user activity.
- Focus on security features like encryption badges and privacy reassurances to build trust.

- Create an intuitive onboarding process that explains financing options and gets users started quickly.
- Develop customizable dashboards for users to track funding progress, payments, and available balances.
