Data structure and Algorithms

PROJECTS

Calculator ↗
- **Calculator is used for performing basic mathematical operations like Addition, subtraction, multiplication, and division.**
- **This Project was done by using HTML , CSS and JavaScript.**

Spotify Clone ↗
- **Spotify is one of the world's most popular music streaming platforms, and it has a vast collection of songs, albums, playlists, and podcasts. With the Spotify Web API, developers can create amazing applications that interact with the Spotify service. Using the Web API's endpoints, one can get detailed metadata about artists, albums, and tracks directly from the Spotify Data Catalogue.**
- **This Project was done by using HTML , CSS and JavaScript.**

To-Do Lists ↗
- **Todo Lists are the lists that we generally use to maintain our day-to-day tasks or list of everything that we have to do, with the most important tasks at the top of the list, and the least important tasks at the bottom. It is helpful in planning our daily schedules. We can add more tasks at any time and delete a task that is completed.**
- **This Project was done by using HTML , CSS and JavaScript.**
