OBJECTIVES

I look for an opportunity where I can focus on a challenging career in an organization which gives me a scope to update knowledge in every step. I must prove myself as a good team member and perform my duties with best abilities to deal with as many projects try my level best to get success.

PROFESSIONAL SUMMARY

❖ Proficient in developing mobile applications using Xamarin and MAUI, leveraging their cross-platform capabilities for seamless user experiences.

❖ Experienced in full-stack development, utilizing .NET technologies to create robust, scalable back-end solutions that complement front-end mobile applications.

❖ Skilled in designing and implementing RESTful APIs, integrating them efficiently with mobile applications to ensure smooth data exchange and functionality.

❖ Strong understanding of the mobile app development lifecycle, from conceptualization and design to deployment and maintenance.

❖ Adept at Agile methodologies, ensuring rapid iteration and delivery of high-quality software with continuous integration and deployment.

❖ Competent in designing and implementing comprehensive test cases for Xamarin applications, ensuring thorough testing coverage and high reliability.

❖ Knowledgeable in debugging and resolving issues within Xamarin, .NET, and API applications, enhancing performance and user experience.

QUALIFICATION AND ACHIEVEMENTS

Qualifications	- B-Tech in Computer Science from Gautam Buddha University in 2022 - Class XII(CBSE) from Gold Field Public School, Faridabad in 2017 - Class X(CBSE) from Gold Field Public School, Faridabad in 2015
Skills	- Programming Languages: Java, C/C++, Python, C# - Web: HTML, CSS, JavaScript,Asp.Net - Mobile Development: Xamarin, Dotnet MAUI - Database: MySQL - Soft Skills: Time Management, Teamwork and Effective Communication Skills.

Achievements	● Earned LinkedIn Badges - Java - HTML - CSS - JavaScript - Python - Xamarin ● Won physics Olympiad. ● Won inter school GK competition. ● Participated in a Hackathon organized by hacker Rank.

PROFESSIONAL EXPERIENCE

Company :- HCL (July 2022 – Till Date)	
Project Name	HCL emPower
Technology used	Xamarin Framework, C#,DotNet
Role	Full Stack Developer

Description:

HCL emPower is a business and productivity application available for Android/IOS devices. Developed by HCL Technologies Limited BTIS-EDS, it provides users with a unified experience across important enterprise applications and allows them to conduct business on the go. HCL emPower is an application designed for HCL employees, serving as a centralized platform or tool to access various resources, services, and information related to their work and the organization.

Role and Responsibilities:

• Designed and developed cross-platform mobile applications using Xamarin and MAUI, ensuring compatibility across iOS and Android devices.

• Implemented clean and maintainable code in C# within Xamarin and .NET frameworks, adhering to best practices and coding standards.

• Developed and integrated RESTful APIs to enable seamless data retrieval, authentication, and interaction between front-end and back-end components.

• Collaborated with UI/UX designers to create visually appealing and intuitive user interfaces for mobile and web applications.

• Conducted comprehensive testing, including unit testing to identify and resolve bugs and ensure high-quality software.

• Optimized app and API performance by identifying and addressing bottlenecks, minimizing resource usage, and improving responsiveness.

• Managed code repositories using Azure DevOps, facilitating collaboration with other developers and stakeholders through version control and continuous integration.

• Documented the development process, including code comments, technical specifications, and user manuals for both mobile and web applications.

• Provided technical support to end-users during the UAT process, troubleshooting issues, and implementing updates and enhancements to existing applications.
