Career Objective

I am looking forward to work in an organization, which provides the environment for growth with competent and strong leaders in **Manual and Automation Testing** having an experience in **Functional, Non-Functional, Globalization, UI Testing, API Testing, Automation Testing (Selenium Web driver with JAVA) and Web service Testing using POSTMAN**. I have an urge and inclination for learning new technologies, a strong work ethic combined with a commitment to excellence in all projects undertaken.

Professional Summary

- 3.5 years of Experience in **Automation testing, Manual Testing** and all phases of Software Testing Life cycle (**STLC**) with good experience in the **Sanity Testing, Functional Testing, Regression Testing, Retesting**.
- Working knowledge and experience in all phases of **software development lifecycle (SDLC) and software Testing lifecycle (STLC)** including requirement analysis, test planning, test case design and test execution.
- Strong knowledge on manual testing with **Functional, Non Functional testing, Globalization Testing, Cross Browser Testing, Web services Testing, API Testing, UI Testing and Automation Testing using Selenium Web driver with JAVA**.
- Implemented **Agile Methodology** process in the Project.
- Good Knowledge of **Web service and API Testing** using **POSTMAN**.
- Experience in domains like **Investment Banking, Health Care**.
- Excellent communication skills both written and spoken.
- Developed, executed and maintained automated test scripts using Java programming language and test frameworks such as **Selenium, Extent Reports, Maven, GitHub**.
- Good understanding of **Object-Oriented Programming design principles and concepts**.
- Experience in programming languages like **Java**.

- Experience on test management/defect management tool like **Jira**.
- Executed all the test case and report defects, define **severity and priority** for each defect.
- Basic Knowledge about **UNIX Commands**.
- Knowledge of JAVA concepts like **OOP's, Collection, Arrays, and String Class**.
- Experienced in **Handling Popups, List Box & Actions, designing POM (Page Object Model) classes and Test classes using TestNG & Annotations**.
- Knowledge of handling Synchronization (**Implicit, Explicit waits**).
