PROFILE

A seasoned full-stack developer with over **2 years** of experience in web/app development. Proficient in leading cross-functional teams and driving product development from ideation to launch with a strong focus on agile methodologies.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C++, Java

Framework/Library: React, Next.js, Node.js, Express.js, React Native, Redux, RTK Query, Prisma

AI/ML Frameworks: TensorFlow, PyTorch, Transformers, Langchain

Databases: MongoDB, PostgreSQL, MySQL, Redis

General: Data Structures, Algorithm, OOPs, REST, GraphQL, RabbitMQ

Developer Tools: Git, Github Actions, Docker, AWS, Vercel, Firebase, Xcode, Postman, Swagger

EXPERIENCE

Hyathi Technologies | Full-Time

Hyderabad, India

Full Stack Developer

Feb 2023 – Present

- Led design and implementation of user-centric web/mobile apps with React, Next.js, and React Native. Conducted **code reviews**, and merge **Pull Requests**, ensuring top-notch quality and functionality.
- Architected a robust **CMS System**, effectively serving as a website builder utilizing **GrapesJS**. Integrated custom components for enhanced functionality, including RSS feed, forms, stock ticker, and JSON Data Store.
- Gained expertise in **Microservices**-based backend development, collaborated on a custom private npm package for configuring **Keycloak**, **Redis broker**, **RabbitMQ**, and **Stripe**, enhancing code reusability.

EDUCATION

Institute of Technology and Management

Gorakhpur

B. Tech in Computer Science and Engineering | CGPA: 7.40

Aug 2019 – May 2023

PROJECTS

Mahalo  | *TypeScript, React Native, Next.js, React, Node.js, MongoDB*

Jan 2024 – Present

- Directed the entire development lifecycle of Mahalo, a secure **NFC-based** tipping and point-of-sale app, leading a team of **5 members** and ensuring strict adherence to coding standards.
- Integrated **Veriff KYC** and Stripe Connect, fortifying platform security to achieve **100% AML** compliance.
- Architected the full Mahalo ecosystem, encompassing backend, mobile app, admin panel, Business admin panel, and support system, guaranteeing seamless integration and performance with **100%** uptime achievement.

Vibehut  | *JavaScript, TypeScript, React, Tailwind, Socket.io, Twilio, Node.js, MongoDB*

Feb 2023 – Mar 2024

- Vibehut, a pioneering social video platform bridging social Web2 platforms and **Web3 blockchains**, assisted in configuring **Twilio** for group video calls and implemented live-streaming support using **Mux**.
- Introduced **lazy loading** to reduce bundle size, thereby boosting site performance by **30-40%**.
- Boosted user engagement by **20%** through personalized notifications and a chatbot powered by OpenAI. Augmented engagement further through **AI Personas**.
- Leveraged **Redis** caching for Rooms, News, Post feed and live call details, ensuring call persistence post-deployment with a **50%** reduction in query response time.

Deguns  | *TypeScript, Next.js, BigCommerce, GraphQL, Authorize.net, DynamoDB*

Feb 2023 – Oct 2023

- Developed America's Largest E-commerce Gun store using Next.js, integrating with **BigCommerce CMS** initially built on **Vtex**.
- Customized **Vercel** packages for tailored use cases and Utilized BigCommerce GraphQL storefront with strongly typed fetch requests to streamline API calls to the Big-Commerce server.
- Scripted a Node.js tool to seamlessly migrate over **60,000** products from **Sports South**, ensuring the prevention of duplicates from Deguns products.
- The revamped website significantly revitalized the brand, achieving an exceptional milestone of generating approximately **\$27,400** in sales on launch day.
