SUMMARY

Passionate software engineer with a knack for designing robust and scalable solutions to unique and challenging business problems.

TECHNICAL SKILLS

- Front-end: HTML5, CSS3, JavaScript, JavaScript, Bootstrap, Wordpress
- Back-end: Node.js, Express.js, C, Python
- Databases: MySQL, MongoDB, MsSQL
- Version Control: Git, GitHub
- Other: RESTful APIs, Responsive Design, Cross-browser Compatibility

WORK EXPERIENCE

Web Developer, Insights Marketing & Communication, Remote

April 2024 - Present

- Developed dynamic and responsive websites using **HTML, CSS, JavaScript**, and backend technologies like Node.js, ensuring cross-browser compatibility and optimal user experience.
- Collaborated with teams to deliver scalable web solutions, integrating SEO best practices and accessibility standards to enhance site performance and visibility.
- Implemented RESTful APIs and integrated third-party services to enhance website functionality and improve data handling efficiency.
- Utilized version control systems like Git for source code management and collaboration with other developers.

Software Developer, Semusi, Remote

Aug 2023 - April 2024

- I worked on the **appliance** platform, where I was responsible for developing backend solutions to integrate communication channels such as **WhatsApp, SMS, and email**. I collaborated with senior developers to design and implement backend solutions that met business requirements.
- Designed and implemented backend APIs for paperless e-signing solutions for our customers.
- Implemented automated testing to ensure reliability and functionality of backend solutions.
- Optimized database queries and improved system performance, resulting in a 20% reduction in response time.
- Collaborated with cross-functional teams to gather requirements and deliver solutions that aligned with business goals.

- Collaborated with senior developers to support the design and implementation of backend services and APIs
- Participated in developing responsive and user-friendly web interfaces using HTML, CSS, and JavaScript, ensuring compatibility across multiple browsers.
- Participated in code reviews and debugging sessions, learning best practices for clean and efficient code.
- Created and updated documentation for web projects, ensuring clarity and consistency for future development.
- Participated in code reviews and debugging sessions, learning best practices for clean and efficient code.
- Created and updated documentation for web projects, ensuring clarity and consistency for future development.

Web Development Intern,Eonify Tech

June 2021 - Nov 2021

- Assisted in the development and maintenance of company websites, contributing to both frontend and backend tasks.
 - Collaborated with senior developers to design and implement new features, enhancing website functionality and user engagement.
-

PROJECTS

- Assisted in the development and maintenance of company websites, contributing to both frontend and backend tasks.
 - Collaborated with senior developers to design and implement new features, enhancing website functionality and user engagement.
-

EDUCATION

B.Tech in CSE, The Islamic University of Science and Technology

Oct 2018 - Nov 2022

CGPA: 7.34/10

Main coursework: Computer Architecture, DBMS, OS, Web Development,Software Engineering.

CERTIFICATIONS

- Machine learning with python (NIIT)
- Data Science Real World Projects in Python. (Udemy)
- Complete JAVASCRIPT with HTML5,CSS3 from zero to Expert-2021 (Udemy)
- Learn HTML5 For Beginners Zero to Hero Course in 2021 (Udemy)
- HTML, JavaScript, & Bootstrap - Certification Course (Udemy)
