09/2020 – 10/2023

Bachelor of Science in Information Technology

Roorkee, Uttrakhand

### Projects

---

#### Shopkart(E-commerce)

- An awesome project built using React js
- There is many items we added in the project in which a user can interact with the UI comfortably

#### Hotel Website

- Builts with html,css and javascript.
- we added many features for the user to use it easily.

#### Password Generator

- Built with html,css,Javascript and react js.
- It includes the character and numbers and special characters to get the unique password.
- In this we create a random password which is minimum five characters

#### Todo App

- Builts with html,css and Javascript only.
- In this there is a many features just like a title,heading and notes which we can add our task briefly.

#### Music Player

- Built with html,css and Javascript.
- Very impressive interface for the user to enjoy the music.

### Technical Skills

---

HTML,CSS,JAVASCRIPT,REACT JS
