~ TODO App - [click here](#)

Tech Stack - HTML, CSS, JavaScript, React.Js, Redux-Toolkit

Developed a TODO App using Redux-Toolkit with CRUD operations

Experience

Bodhi Estate & Bodhi Foundation (NGO)

Web Developer | 01/2025

Developed premium websites for Bodhi State, a real estate company, and its partner NGO, Bodhi Foundation. Focused on creating clean, responsive, and user-friendly designs tailored to their specific goals.

Furniix

Web Developer | 05/2024

Designed and developed a premium landing page for Furniix for advertising campaigns of prefabricated structures. Additionally, built a full-featured website for Gruhshobha, a partner company specializing in metal home decor products. During this project, I have closely collaborated with clients to understand requirements and helped both brands improve their online presence and customer engagement.

Malka Builders

Web Developer | 03/2024

Designed and developed a responsive, user-friendly website for Malka Builders using HTML, CSS, and JavaScript, a real estate company, improving their online presence and user engagement.

Ghosting Tech | Patna Bihar

Frontend Developer Internship | 11/2023 - 02/2024

During my internship as a Front-End Developer at Ghosting Tech, I have developed strong problem-solving and teamwork skills while collaborating with cross-functional teams.
