Technology	Spring Security-Authorization and Authentication, Hashing, WebSocket, STOMP, Hibernate, JWT, Angular 7, MVC, JPA, FluxQuery, Logging, Jenkins CI/CD, Docker, NewRelic, GCP-Storage, Sequelize, Lambda service Serverless deployment, kubernetes, AWS-Storage, kibana, microservices, swagger

Tool	Jira, Git, Postman, Bitbucket, Trello, maven, Adobe XD, figma software
Operating Systems	WIN 2000/XP/2007/WIN 8/WIN 10/WIN 11/UBUNTU-20/Mac/DOS, all familiar with unix

Work Experience

- Nitor infotech (1-Jan-2020 – 1-Mar-2020)**
 Training as a full stack developer. I am using SpringBoot framework for Backend and fronted in angular or the database is mysql.
- Cloud18 Infotech Pvt (20-Sept -2020 – 21-Jan-2021)**
 Initially worked on JSP project in which need to add more functionality and do small bug fixes. After that get a chance to work on project based on springboot and angular and after that get a chance to work on Laravel project in which need to do small bug fixes.
- Softfix Technologies OPC Pvt (2-Mar-2021 – 2-Sept-2021)**
 Initially worked on Laravel project in which need to add product variant functionality and do small bug fixes(<http://vliveindia.com/cna>). After that get a chance to work on project based on CodeIgniter and do fix registration process. After that get a chance to work on Loan-bazar project in which need to add 8 CRUD operation function or do small bug fixes.
- Observance Solutions Pvt (2-Nov-2021 – 12-Mar-2023)**
 Initially worked on project in which need to add API on find available slots of view by state , view by city , view by area-code. Basically, this project based on collect sample blood test for a lab for a Felbo. Now move on second project, this project is also called logistic management. Create one API of scan QR code. Now move on third project, this project based on AI analysis tool in Springboot. Which provide analysis of model's performance like total frame, total detection, model health. Which model is better or not? All model's data stored in Timeseries DataBase (InfluxDB)
- Quick Infotech Pvt (27-Mar-2023 – 30-Nov-2023)**
 Initially worked on CodeIgniter framework project in which need to add Google license billing profile and also integrate with connectWise Service API. After that implement smaller functionality and bug fixes. Now move on second project, this project is called logistic management and also based on CodeIgniter framework. In which project I develop an api related to print dynamic pdf format which contain billing information about the contractor filling form.
- Augurs Technologies Pvt (15-Jan-2024 – 15-Aug-2024)**
 Initially, I worked on a Laravel framework project that involved purchasing articles and publishing them across different domains. The frontend was built using React.js. This project featured four dashboards for different user roles: User, Publisher, Writer, Supervisor, and Admin. The project had five major processes. First, a user would buy or write an article within a specific domain. Then, a Supervisor would approve the article, after which it could be published.

I implemented various functionalities and fixed bugs, including:-offer redeem code, offer special code, many filters for list of domains, Apply cron job, throtel 10 click. And bug fixes like - server side pagination, send email format managed by admin side.

College Project

- **Web Based Chatting Application (Major Project)**
This Project based on springboot and angular plus using Spring Security-Authorization and Authentication, JPA, Hibernate, WebSocket, STOMP, MVC, API and Mysql.
- **Library Management System (Minor Project)**
This project based on System Application using Java language and framework is eclipse.

Extra-Curricular Activities

- Electronic instruments are my passion and specially the computers and mobiles.
- Video games
- Active member of all the games teams at school.
- Volunteer of Cairia Conference at Amity.
- Participated in science fairs.
- Actively participated in curricular activities at college Level.
- Listening to music, watching NEWS and Net surfing.
- Playing Badminton and I love to write.
