EDUCATION

BTech In Computer Science And Engineering

Noida Institute of Engineering And Technology
Greater Noida

09/2020 to 1/6/2024- 79.8% till 8th Semester

Intermediate

B.L.J Inter College

2019, 70%

High School

Guru Nanak Inter College

2017, 80%

PERSONAL PROJECTS

Freelancing Agency Website

- Web app designed to help handle small freelancing agency start up that operate most task to help of website
- Technologies Used: HTML, CSS, JavaScript, , MS SQL. Working on API's for handling/enhancing the DB operations.

Online E-Learning Application

- it is a full-fledged web development project that enables you to keep a personal blog or diary, which has given me additional insight into technologies like EJS and Databases.
- This project makes use of web development tools, which has allowed me to learn more about how to link databases to websites and other cutting-edge development tools.

Bulk Mail Sender (Mail It!)

- Web app designed to help small businesses that operate mostly on
- excel/csv files which could be uploaded on our portal and trigger the email using mail API (Nodemailer).
- Used React Js for frontend and Node-Express JS for backend.
- Used Context API for proper state management.
- Used Bcrypt for password encryption and Json Web Token for Authentication.
- Used MongoDB and Coludinary as storage.
- Used Heroku for hosting.

WORK EXPERIENCE

Web Development Intern

PNAPAAO

- Technologies Used: HTML, CSS, Java script, MySQL, UI design. Working on API's for handling/enhancing the DB operations.
- I worked with my senior engineers to plan and create a magnificent user interface that caters to the practicality and functionality of each element.
- In order to support client-side server frameworks, I studied front-end and back-end object-oriented programming.
- Developed a new set of solutions that, respectively, boosted availability and scalability by 45% and 75%.
- Coordinated with a team of eight people with diverse engineering and design expertise.

SKILLS

- C
- Data Structures And Algorithms & OOPS
- C++
- HTML 5
- Python(Basic)
- CSS 3
- CSS framework(Bootstrap, Tailwind)
- Java Script
- React.js
- Node Js(Intermediate)
- My SQL
- Git and Github

ACHIEVEMENTS

Achieved AIR 160 in Round 1, 533 in Round 2 and

Graduation year rank 623 in Code Kaze by Coding Ninjas with 50,000+ participants.

Achieved Rank 70 in Codextreme by Coding Blocks with over 300+ participants.

Solved 500 + question on Coding Ninjas

I have more than 250 submissions this year and I also have a badge of 100 days active in Leetcode.

CERTIFICATES

HackerRank JavaScript (Intermediate)

It covers topics like Design Patterns, Memory management, concurrency model, and event loops, among others.

HackerRank C++ (Intermediate)

It covers the concepts behind the Flex box responsiveness

HackerRank Problem Solving (Intermediate)

It covers topics of Data Structures such as HashMaps, Stacks and Queues and Algorithms such as recursion.

HackerRank Rest API (Intermediate)

It covers topics like getting data from an API and process using parameters or paging.
