=====

WORK EXPERIENCE

Independent Contractor

Front-end Developer

Delhi, India

March 2023 - present

1. FITS-LIST: FITS-LIST helps restaurants team up with influencers to promote their business, making collaboration easy and boosting visibility.

TECH-STACK: React, React Native, Redux/toolkit

- Developed a **cross-platform web and mobile app** connecting **5,000+ influencers** with restaurants, streamlining promotional campaigns.
- Built an **admin dashboard** for restaurants to create and manage deals, reducing manual coordination.
- Implemented **influencer-side mobile features** (deal booking, proof-of-post uploads, QR-based identity verification), improving campaign security and approval efficiency.

2. AKC 🧠: AKC provides technical, law, and humanities courses to university students in the Netherlands.

TECH-STACK: React, Redux/toolkit, Stripe.

- Built a **course management platform serving 20,000+ students**, enabling seamless **course search, enrollment, and purchases**.
- Integrated **Stripe payments**, processing **thousands of transactions** monthly.
- Designed **real-time chat rooms** for student-professor interaction, boosting engagement rates in online courses.
- Developed **custom dashboards** for teachers and university admins, simplifying attendance tracking and live class participation.
- Delivered a **responsive, accessible UI (A11y compliant)**, ensuring a **99.9% crash-free experience** across devices.
