MERN STACK DEVELOPER

SKILLS

- **JavaScript**
- **ReactJs**
- **ExpressJs/NodeJs**
- **HTML&CSS**
- **Git**

OBJECTIVE

Seeking an opportunity where I can display my skills and knowledge to contribute for the growth of the organization .

PROJECTS

Tictactoe

- https://myfirstprojecttictactoe.surge.sh/
- In this project react.js is used as a primary language for frontend and for functionality i had used javascript.
- For deployment, i use surge with help of git.

Fitness web application

- https://tigerfitnessclub.netlify.app/
- In this project react.js is used as a primary language for frontend end and i use rapid api services for fetching the youtube videos and exercies
- For deployment ii had used netlify services

Fighting game

- https://fightstarts.netlify.app/
- This game only works on desktop as for movement of players it required keys
- This project is purely develope on javascript , animations are done by css . and deployed on netlify

Quotes Suggestions

- https://livequotes.netlify.app/
- This web application is very simple and effective
- Using ReactJS as frontendand and Rapid api for suggestions of quotes
