## SUMMARY

## WORK EXPERIENCE

Full-Stack Developer skilled in React.js, Node.js, and MongoDB, with a strong focus on creating scalable, efficient, and user-friendly web and mobile applications. Successfully developed a dynamic news application integrating multiple APIs, showcasing strengths in real-time data handling, responsive design, and seamless API integration. Passionate about contributing to innovative, forward-thinking projects and thrives in agile environments with a commitment to clean code and modern development practices.

## MERN Stack Developer | Techpile Technology Pvt. Ltd Lucknow

- Developed dynamic and **responsive web applications** using **React.js** optimizing for both performance and user experience.
- Integrated **Node.js** and **Express.js** for efficient back-end development, ensuring seamless data handling and reducing server response time.
- Managed and optimized **MongoDB** databases, improving query performance and data retrieval by **30%**.
- Collaborated with cross-functional teams, utilizing **Git** for version control and contributing to the agile development process.

## SKILLS

- Technical Skills :** React.js, Node.js, Express.js, MongoDB, HTML, CSS, JavaScript, C, Bootstrap, SQL, Tailwind.
- Soft Skills :** Communication, Problem Solving, Teamwork.
- Languages :** English, Hindi

## EDUCATION

### Diploma in Computer Science

Mahamaya Polytechnic of information Technology, Sant Kabir Nagar, India

Jan 2021 - May 2024

Aggregate: 76%

### Intermediate in Science

B.K.G Inter College

Aggregate: 72%

## PROJECTS

### Book Store App | Mern Developer

Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js), bcrypt.js

- Developed a full-fledged book store application using the MERN stack, integrating user authentication and real-time data functionality.
- Implemented secure user authentication and authorization using bcrypt.js, ensuring data protection and privacy.
- Enabled CRUD operations to manage books and user profiles, providing users with an intuitive interface for browsing and managing book data.

### News App | React Developer

- Created a dynamic news application that integrates various news sources, enabling users to filter, bookmark, and share articles.
- Integrated external news APIs to fetch and display real-time news articles, ensuring the delivery of up-to-date content.
- Implemented pagination and infinite scrolling, optimizing content loading for a smooth and engaging user experience.

### Text to Speech Converter, Quiz App, To-Do List, Tic-Tac-Toe,

- Developed a **Text-to-Speech Converter** app that converts written text into audible speech using the Web Speech API.
- Created an interactive **Quiz App** that allows users to take multiple-choice quizzes, track their scores, and view correct answers.
- Built a **To-Do List** application where users can add, edit, delete, and mark tasks as completed.
- Developed a simple Tic-Tac-Toe game with real-time player interaction and victory conditions.
