EXPERIENCE

SETMYCAREER.COM | FRONT END DEVELOPER

Feb 2022 – Current | Bangalore, Karnataka

- Designed, developed, and launched a comprehensive website for SetMyCareer. This company is product-based and it provides career counselling by world-expert counsellors.
- I create new pages for the website and landing pages for marketing using HTML, CSS, Bootstrap, and Javascript.
- I maintain the whole website and remove bugs daily; I use a Windows server and FileZilla to maintain the server. and I also maintain the smooth functioning of the portal.
- I am a team member of the dashboard developed in Reactjs and Prime React.
- I edited videos and created photos for the website pages. and daily add new features for the websites i.e. refer and earn page, the profile of the experts, and quiz for the website.

CALPION SOFTWARE TECHNOLOGIES PVT. LTD. | WEB DESIGN ENGINEER

Jan 2022 – Oct 2021 | Bangalore, Karnataka

- I used to develop multiple web pages using HTML, CSS, Bootstrap, and jQuery.
- I used to develop multiple apps i.e. Quiz Applications for the website.

NEWTON SCHOOL | FULL STACK WEB DEVELOPER

may 2021 – Oct 2021 | Bangalore, Karnataka

- The Newton School involved learning and gaining experience in full-stack web development, problem-solving, and business communication. Participate in multiple contests organized by the Newton School, Hackerrank, and Hackathon.
- The technical stack included C, C++, Java, HTML, CSS, JS, and ReactJs; MySQL; and Data Structure using Eclipse and IntelliJ Idea.

PROJECTS

DASHBOARD FOR THE WEBSITE | REACTJS AND PRIME REACT

2022

- In the dashboard users can log in with the help of a Gmail ID or Phone number. we have classified our services(career Growth, Career Counselling, Psychological Counselling, and coaching and mentoring) in which users can select the options of the product and book the session with our experts. After the session users can log out and then come out by switching the user option.
- They can buy the packages and we have set the payment gateway by using Razorpay. They can pay using Razorpay.

FULL WEBSITE OF SETMYCAREER | HTML, CSS, BOOTSTRAP AND JAVASCRIPT

2022

- I have developed a full website for the company. You can visit this site at www.SetMyCareer.com, and I have created multiple pages for multiple purposes.
- I have developed multiple landing pages for the promotion of the company. i.e., refer and earn, career counseling for students and Working professionals, etc.

OBJECTIVE
