Contact: 7717696933

Email: narinderd9@gmail.com

A dedicated Front-End Developer with 2+ years of experience in building and maintaining responsive websites. Proficient in HTML, CSS, JavaScript; plus modern libraries and frameworks such as ReactJS, Redux, and Next.js. Passionate about performance optimization, user experience, and implementing innovative digital solutions..

Skills

- React.js
- Redux Toolkit
- Tailwind
- HTML5
- CSS
- NextJ
- styled-components
- AntDesign
- RESTfulAPI

Languages

- English – Fluent
- Hindi – Professional
- Punjabi - Native

Work Experience

Reactjs Developer • DigiMantra Labs

April 2024 - Present

- Develop and Maintain React JS Applications: Design and build scalable, efficient, and reusable front-end components and applications using React JS, ensuring high performance and responsiveness.
- Feature Enhancement: Collaborate with cross-functional teams to understand client requirements and implement new features and enhancements in existing applications.
- Debugging and Issue Resolution: Identify, troubleshoot, and resolve complex technical issues and bugs in React JS applications to ensure seamless user experiences.
- State Management with Redux: Implement and manage global application state using React Redux, ensuring efficient state transitions and data flow across the application.
- Styling with Styled Components: Utilize Styled Components to create modular, maintainable, and responsive UI elements that align with the overall design and branding guidelines.
- Performance Optimisation: Continuously monitor and optimize application performance, ensuring fast load times and smooth user interactions.
- Code Reviews and Best Practices: Participate in code reviews to maintain code quality, consistency, and best practices across the team.

Responsive Design Implementation: Ensure that all web applications are mobile-responsive and work seamlessly across different devices and browsers.

Continuous Learning and Improvement: Stay updated with the latest trends and best practices in React JS development, and continuously seek opportunities to improve skills and knowledge.

Front EndDeveloper • Arktastic

May 2022 - April 2024

Arktastic is an Australian e-commerce marketplace company where merchants sell around the globe from countries like US, Europe, etc

Contributed to the development of various interactive and responsive web applications using ReactJS, Redux, and NextJS

Implemented performance optimizations in Next.js-based applications leading to improved load times and overall user experience

Integrated and managed various email services for efficient communication with users

Worked closely with the design and backend team to ensure seamless integration and maintain a cohesive design language across the applications

Helped in code reviews, testing, debugging, and documentation to maintain code quality and application performance.

Junior Frontend Developer • RoomBuddy

February 2022 - May 2022

Streamlined and enhanced development processes by integrating a variety of front-end libraries

Designed and implemented custom as well as isomorphic components to encourage code reusability and efficiency

Managed and implemented complex, responsive layouts, ensuring optimal user experience across a variety of devices

Employed advanced debugging and troubleshooting techniques to ensure the delivery of high-quality, bug-free application interfaces.

Education

2011 - 2015

Chandigarh University

Electronics and communication
