Education

Madan Mohan Malaviya University Of Technology · Gorakhpur, U.P.
Master of Computer Applications (MCA), CGPA: 8.02 · *Nov 2022 – Aug 2024*

Pt. Ambika Pratap Narayan Snatakottar Mahavidhalaya · Santkabir Nagar, U.P.
Bachelor of Science, Percentage: 67.38 · *Aug 2019 – Aug 2022*

Internship Experience

Zebnux Technologies · Remote
Web Developer · *July 2023 – Oct 2023*
- Designed and developed responsive websites using React.js, enhancing user experience and interface.
- Collaborated with a team to integrate front-end components with backend services using the MERN stack.
- Worked with RESTful APIs to fetch and display dynamic content.
- Participated in code reviews and provided constructive feedback to improve code quality.
- Assisted in debugging and optimizing performance for various web applications.

CodSoft · Remote
Web Developer · *Aug 2023 – Sept 2023*
- Completed assigned tasks by the company, focusing on specific web development projects.
- Developed and maintained web applications using HTML, CSS, JavaScript, and React.js.
- Collaborated with cross-functional teams to deliver high-quality web solutions.
- Assisted in the design and development of user interfaces to enhance user experience.

Skills

Languages & Tools: C++, HTML, CSS, MySQL, JavaScript, ReactJs, NodeJs, MongoDB

Development Practices: Agile Development, Code Reviews

Other Skills: Cross-Browser Compatibility, Responsive Web Design

Projects

Web Chat Application · MERN Stack (React, Express, MongoDB, Node.js)

- Implemented real-time text messaging for instant communication with live updates.
- Developed user authentication ensuring a secure sign-up and login system.
- Created efficient user search functionality.
- Designed a dynamic user interface with a best-in-class GUI for a user-friendly experience.

Online Book Store · MERN Stack (React, Express, MongoDB, Node.js)

- Developed an online bookstore utilizing the MERN Stack.
- Integrated Google Firebase for secure user authentication.
- Implemented separate admin and user panels to enhance user experience and streamline administrative tasks.

Weather App · HTML, CSS, JavaScript, API Fetch

- Built a weather application that fetches and displays weather data using a public API.
- Implemented a user-friendly interface with dynamic updates based on user input.
- Ensured cross-browser compatibility and responsive design.

Achievements

4-Star rating on HackerRank in C++.

1st position in Drama in CSSE Informal Event at MMMUT.

1st position in Paper Dance in CSSE Informal Event at MMMUT.

Gold medal in Volleyball in college sports event at MMMUT.
