SUMMARY

Enthusiastic and motivated front-end developer with a strong passion for creating responsive and user-friendly web applications using React. With a solid foundation in web development, I am eager to leverage my skills in HTML, CSS, JavaScript, and React to contribute to innovative projects. I am a quick learner and detail-oriented. With a commitment to staying updated with the latest industry trends, I am ready to take on new challenges.

PROJECTS

Millennial Shopping

- Designed and developed "Millennial Shopping " a personal e-commerce website project from scratch.
- Implemented core functionalities including
 - User Authentication:
 - Created a secure Login and SignUp system to manage user accounts.
 - User-friendly UI:
 - Designed an intuitive Home Screen for easy navigation.
 - Developed a Products Section to showcase a variety of products.
 - Implemented a Contact Section for user inquiries.
 - Created a Cart Section with Add and Remove functionality to facilitate seamless shopping experiences.
- Tech stack used : **HTML, CSS, Javascript, React, Redux, Bootstrap, font awesome, react-toastify**

Popcorn Flix

- Developed "Popcorn Flix," a web application that leverages an API to retrieve a list of movies and implements a search functionality with debouncing for a smoother user experience.
- Key contributions include:
 - API integration:
 - Integrated an external API to fetch and display movie information, ensuring up-to-date content for users.
 - Enhanced User Experience:
 - Implemented a search feature with debouncing, enhancing search responsiveness and reducing unnecessary API calls.
- Tech stack used : **HTML, CSS, Javascript, React, Context, Bootstrap.**

Projects made on vanilla Java Script -

Clock and Todo list
