### Sarvodaya Infotech Pvt. Ltd.

Web Designer  
03/2022 – 09/2023  
Vaishali (Gaziabaad)  
As a web designer at Sarvodaya Infotech Pvt. Ltd., I will be tasked with creating visually stunning and intuitive websites. Collaborating with cross-functional teams, you'll ensure the seamless integration of design and functionality to meet client objectives. My role is pivotal in delivering high-quality web solutions that resonate with target audiences and drive business success.

## 🧠 SKILLS

- HTML
- CSS
- Bootstrap
- Tailwind Css
- Javascript
- Reactjs
- Next.Js

## 📁 PROJECTS

### Saudi Go

02/2024 – 04/2024

Developed using Next.js and Tailwind CSS, Saudi Go is a comprehensive web application aimed at facilitating seamless navigation and access to essential services for users in Saudi Arabia. Leveraging Redux Saga, I implemented advanced state management and asynchronous data handling, ensuring optimal performance and user experience. Saudi Go highlights my expertise in utilizing cutting-edge technologies to deliver efficient and user-centric solutions tailored to specific geographic regions.

### ShaadiPos

11/2023 – 02/2024

Shaadipros is my latest endeavor, leveraging Next.js and Tailwind CSS to build a dynamic and visually captivating web application. Employing Redux Saga, I ensured seamless state management and efficient data flow, contributing to its robust functionality. This project showcases my proficiency in modern web development technologies and my ability to create compelling digital experiences.

### Ambiview

01/2024 – 01/2024

Developed using next.js and tailwindcss

### Fastag Suvidha

01/2023 – 02/2023

It is single page static website and developed in HTML, CSS and Javascript and Bootstrap.

### Truck Suvidha

04/2022 – 08/2023

This project is in asp.net and C#, but i am working in for design purpose to use asp.net
