SKILLS

PROGRAMMING

Languages:

- Java

Intermediate:

- Data Structures
- Algorithms
- HTML
- Springboot

Familiar:

- MySQL
- Data Structure and Algorithms
- Object Oriented Programming

TOOLS

- Visual Studio
- Netbeans

COURSES

- Database Management System
- Data Structures

EXPERIENCE

CODECLAUSE JAVA DEVELOPER INTERN

1 MONTH | AUGUST 2023 - PRESENT

- Developed a feature-rich app in Java using Java Swing, incorporating a graphical user interface and multiple functionalities within the file and edit menus, enhancing user experience and productivity
- Built a robust application System using Java Swing library and MySQL database, establishing seamless connectivity between the front-end and back-end, resulting in an efficient and user-friendly application.
- Actively participating in code reviews and providing constructive feedback to peers, fostering a collaborative environment and contributing to the continuous improvement of the team's coding practices

PROJECTS

AIRLINE RESERVATION SYSTEM (click)

JAN 2023 - FEB 2023

- Build a Airline Reservation system. Java Swing library is use to add functionality building the project's front end.
- GUI will be built using the Java Swing library. I used MySQL database.
- JDBC driver used to connect Java with MySQL.JDBC works as a Bridge that connect frontend and backend. and J Frame.
- Java Swing library, MySQL DataBase

SNAKE GAME (click)

DEC 2022 - DEC 2022

- Developed a snake game using is Java Swing library,which provides lightweight components for making window-based applications.Classes used in the game include J Button, J check boxes, combo box, J File Chooser, and J Frame.
- Basic UI, which includes the frames, content, content pane, dimensions, and color of the background.
- Java Swing library

TEXT EDITOR (click)

SEPTEMBER 2022

- Built a Text-Editorin Java, using Java Swing for creating a graphical user interface, and with two menus (file and edit) and multiple features within each menu.
- Creating Frames using Swing.
- Java Swing(JPanel,JTextArea, JMenuBar).

ACHIEVEMENTS

- Solved more than 500+ questions on DSA across leetcode and GFG
