## PROFESSIONAL EXPERIENCE

### Mern Stack Developer Intern

JITHVAR CONSULTANCY SERVICES PVT. LTD | 10/2023- 04/2024

- CRM Portal Development: Focused on frontend development for CRM portals
- Technology Stack: Utilized React.js, Node.js, MongoDB, React Libraries.
- API Integration: Managed APIs to render dynamic data on the front end.
- Implemented routing for seamless navigation. Display images, tables, and forms.

### JAVASCRIPT- Frontend developer

YAXA DIGITAL LABS PRIVATE LIMITED | 04/2023 - 07/2023

- I completed over 5 live projects- specializing in Next.js, focusing on transitions, hover effects, and static websites.
- Cross-Platform Design: Developed responsive websites optimized for both desktop and mobile views.
- Version Control & Collaboration: Managed and maintained all projects on GitHub and GitLab.
- Design Implementation: Created all websites using Figma, translating design prototypes into fully functional and visually appealing web applications.

### 3. Full Stack Developer

PREPBYTES | 04/2022 - 02/2023

- During online training period, I gained hands-on experience with various technologies.
- Frontend Development: HTML, CSS, and JavaScript for building responsive and interactive user interfaces.
- React: Developed dynamic and component-based applications.
- Backend Development: Gained proficiency in Node.js, building server-side applications and APIs.
- Database Management: Worked with MongoDB, managing databases and integrating them with backend services.
