PROJECTS

To-Do-App, 1 Months

Have implemented the CRUD functionality in it by using browser's Local Storage. The App should allow the user to Create , Delete or Edit a task. It also allows the user to Filter the tasks based on its completion status.

E-Commerce Website, 3 Months

The aim of this project is to develop a fully functional and user-friendly e-commerce website that allows customers to browse and purchase products online. The website will provide a seamless shopping experience, with secure payment processing and efficient order management.
