EXPERIENCE

Frontend Developer   Dec 2023 - Present
Nighwan Technology   *Hyderabad*

- Achieved 60% growth for Angular using Angular framework, Angular Material, and Angular CLI .
- Led Team which led to 100% of improvement in Angular components, Angular services, Angular routing
- Developed Angular application using Angular version@16, TypeScript, and RxJS leveraging Angular forms, Angular HTTP client, and Angular animations.
- Assisted in the implementation of responsive and user-friendly web interfaces using HTML, CSS and Typescript.
- Integrated third-party APIs to enhance the functionality of web applications.

PROJECTS

HRMS. Developed a comprehensive tool leveraging Angular, NodeJS, Firebase, and boolean queries to facilitate the seamless search for Hiring Managers and Recruiters. Notably, the search results provided by this tool surpass those of popular platforms like LinkedIn, ensuring enhanced efficiency and effectiveness in talent acquisition processes.

Spotify Clone. Developed a dynamic project where users can access songs fetched from the Spotify API. Implemented functionalities include playback controls such as play, pause, stop, shuffle, as well as navigation buttons for previous and next tracks.

EXPERTISE

- Proficient in building responsive and user-friendly web interfaces using HTML, CSS, and Javascript.
- Strong experience in frontend frameworks such as Angular and React.js, including component-based architecture, state management, and lifecycle methods.
- Skilled in implementing modern UI/UX design principles and best practices to create visually appealing and intuitive user experience.
- Experienced in frontend testing methodologies and tools, including unit testing, integration testing, and end-to-end testing framework.
