## EDUCATION

<b>Delhi Technological University</b> <i>B.TECH (Electronics and Communication Engineering):GPA:8.25/10</i>	New Delhi,India 2020-2024
<b>Govt Boys Sr Sec School, K-block J.Puri</b> <i>CBSE (Class XII): GPA:84.00/100</i>	New Delhi, India 2019-2020
<b>Govt Boys Sr Sec School, K-block J.Puri</b> <i>CBSE (Class X): GPA:79.20/100</i>	New Delhi, India 2017-2018

## EXPERIENCE

<b>Navix Consultancy Services</b> <i>Web Developer Intern</i>	January 2023 - March 2023 <i>Remote</i>
<ul style="list-style-type: none"><li>Collaborated with cross-functional teams to build 2 E-commerce projects. Enhanced performance by cutting page load time 5% by reducing the codebase through image and code optimization.</li><li>Gained proficiency in various tools like Bootstrap, Tailwind, Node.js, JavaScript, and HTML/CSS through active learning and project implementation.</li></ul>	
<b>Baby Steps</b> <i>Software Developer Intern</i>	October 2022 - December 2022 <i>Remote</i>
<ul style="list-style-type: none"><li>Engineered a <b>Web app</b> with parent and admin dashboards which accessed by over 100+ parents.</li><li>Employed Node.js, EJS, jQuery, Bootstrap, HTML, and CSS. integrated backend services into the app's calendar using Calendar.JS to provide a modern, user-friendly interface.</li></ul>	

## PROJECTS

Kimaya | [Live Website Link] | [GitHub] | Node.js, MongoDB, React, Socket.io

- Designed and developed a real-time chat application with text-to-speech and speech-to-text functionality, ensuring inclusive communication for users with diverse needs. Integrated camera and microphone for enhanced engagement.
- Leveraged Socket.io for real-time data exchange, MongoDB for efficient data storage and management, and JWT authentication for robust user security, ensuring a scalable and protected communication platform.

Contest Bot | [Live Website Link] | [GitHub] | Node.js, MongoDB, MS Azure

- Developed a WhatsApp bot using Node.js, MongoDB which notifies 450+ users about upcoming coding contests on platforms like Leetcode and Codeforces for timely and effective communication.
- Used Microsoft Azure Virtual Machine to ensure reliable and scalable deployment of the webApp.

Note zipper | [Live Website Link] | [Github] | React, Express, Node.js, MongoDB

- Devised a feature-rich notes-taking web App with seamless Sign-up and Login features for new and existing customers. Leveraged JWT Authentication to ensure secure user authentication and authorization.
- Delivered a seamless user experience with React18 and efficient data management using MongoDB.

MovieTime | [Live Website Link] | [Github] | React, Redux, SaaS, Netlify

- Built with React, Redux Toolkit, and Axios for a streamlined, dynamic, and responsive user experience, seamlessly accessing a vast movie catalog powered by TheMovieDB API.
- SASS-styled UI with intuitive filters by genre, sorting by popularity, rating, or release date, and effortless trailer viewing, empowering users to curate their ideal cinematic journey.

## TECHNICAL SKILLS

**Programming languages:** C++  
**Development skills:** React, Redux, Node.js, jQuery, JavaScript, Tailwind, Bootstrap, Git and GitHub.  
**Core Subjects:** SQL, OOPS, DBMS, OS, Data Structures and Algorithms.

## ACHIEVEMENTS

- Attained a top 2.1 percentile ranking in JEE Main 2020
- Advanced to the 2nd round of Flipkart GRID 5.0 2023
- Solved 700+ quality problems on Leetcode (Difficulty-wise: Hard: 100+, Medium: 350+, Easy: 200+)
- Attained a maximum rating of 1229 (Pupil) on Codeforces.
- Coding Profiles links: [Leetcode](#) | [Codeforces](#) | [GeeksforGeeks](#) | [GitHub](#)

## POSITION OF RESPONSIBILITY

- UI/UX developer for DTU International Student Society
- Web developer head for Ece Department Newsletter
- Content head for Yuvaan, Delhi Technological University
- Mentor for Desh Ke Mentor, Delhi Government
