## SUMMARY

---

Passionate Front-End Engineer with a strong foundation in modern web development technologies, including HTML, CSS, and JavaScript. Proficient in building responsive and user-friendly interfaces using framework like React. Recent graduate eager to contribute to innovative projects, learn from industry professionals, and deliver seamless user experiences.

## PROJECTS

---

### ***Ecommerce Website:***

- Developed a fully functional e-commerce website using HTML, CSS, and JavaScript. The website includes features such as a product listing page, shopping cart functionality, and a responsive design for seamless user experience across devices. Implemented interactive UI elements and ensured smooth navigation to enhance customer engagement.

**Tech Stack:** HTML, CSS, Javascript

### **Amazon website clone:**

- Created an Amazon clone using HTML and CSS, replicating the design and layout of the Amazon homepage. Focused on pixel-perfect implementation of UI elements, responsive design for compatibility across devices, and a visually appealing interface to mimic a professional e-commerce platform.

**Tech Stack:** HTML, CSS
