Profile

Seeking a rewarding career in a challenging organization where I can utilize my skills and knowledge to work for the growth of an organization

Professional Experience

GLogic

Feb 2021 – present | Pune, India

Associate Engineer

- Designed and implemented highly **responsive, scalable single page application (SPA)** along with **3rd-party integrations** from scratch using **frontend technologies, libraries, and frameworks**.
- Build complex **reusable** user interface **UI** components for web applications using **ReactJS**, functional **Hooks**, etc for **optimization** and **maximum performance**.
- Utilized **Material-UI** react library for **data visualization** and information and to build **pixel-perfect layouts**.
- Translated **Figma designs and wireframes** into high-quality code and wrote application interface code via **Javascript(ES6+)** with **ReactJS** principles.

Education

B. Tech (Electronics and Communication)

2016 – 2020 | Kanpur, India

PSIT College of Engineering - AKTU

Grade 7.5/10 CGPA

Projects

Food Ordering App

- Designed and Implemented full-fledged food ordering react web application from scratch using react-router-dom, react hooks, Rest API, Material-UI, and other NPM packages backed up by payment gateway, and a user sign-in feature which allows users to order food from selected restaurants filtered by cuisines, cost etc.

Covid-19 Tracker

- Utilized React Material-UI for the designing of Covid-19 tracker layout from scratch, used react hooks, API for fetching each country Covid data thus further displaying data using JavaScript library Chart.js for data visualization and information.

Todo App

- Designed and Implemented a complete CRUD-based react application using React Hooks, JavaScript(ES6+) functions, Material-UI for pixel-perfect design powered by Firebase as a complete real-time backend for storing the data inside the database.

Skills

Languages (HTML5, CSS3, SASS/SCSS, JavaScript, EchmaScript6+, Python),

Libraries (ReactJS (16+), Redux, Material-UI, Bootstrap),

Developer Tools (Babel, REST, JSON, Git, NPM, GraphQL, Visual Studio Code, Firebase, Github, Webpack)

Certificates

- Python (Basic) by CodeCademy
- Javascript (Basic) by Hackerrank
- React (Basic) by Hackerrank
- Responsive Web Design Principles
