**XML, JSON**

## Experience

***Java Developer (Freelancing)***

 **may 2024 -present**

I have 2.4 years of work experience in the IT industry on Java development projects, covering various aspects of the software development life cycle, including estimation, technical design, documentation, API development, unit testing, and deployment.

***Jr. Software Developer - Java***

**TechTree IT Systems Pvt. Ltd.**

 **Sep 2022 – jan 2024**

 **Noida**

- Worked as back-end developer to provide APIs to Mobile app and Web app and i have also worked as a java full stack developer.
- Technology used: Java, Spring, Spring boot, JPA, Hibernate, MySQL,thymeleaf,javascript.

***Intern Software Developer - Java***

**TechTree IT Systems Pvt. Ltd.**

 **May 2022 – Sep 2022**

 **Noida**

- Worked as a Java developer *Internship*. Using Technology Core Java, Adv. Java, Hibernate, Spring, Spring Boot, Spring MVC, MySQL.
- Designed and implemented Rest APIs based on CRUD operations to perform POST, GET, PUT, DELETE actions.
- Developed mini projects using Spring MVC, Spring Boot, Thyme leaf, JSP, Servlet and MySQL.

## Projects

### DTS(Defence Travel System)(Defence Project)

 **sep 2022 – sep 2023**

- Developed and maintained software solutions to enhance operations and customer experience at Starbucks, a leading global coffee retailer.
- DTS ( Defence Travel System ) is a web application it is provided travel facility like air and rail ticket booking for a defence members (Armed forces and civilians).
- Spearheaded the development of a user mapping system, enabling seamless synchronization between user profiles and their corresponding order and loyalty details.
- My job involved providing microservices, such as writing REST APIs, writing native and JPQL queries and handling data in the database for SIT, UAT, and Preprod environments. I also found, investigated, and fixed bugs and errors in the Production environment and optimized existing APIs. Additionally, I prepared data contracts for the API services.

### VIYA Wasl (UAE Based Project)

 **Sep 2023 – jan 2024**

- **VIYA** is a Dubai Golf Association and WASL Hospitality, mobile app-based program, it is used for booking Golf course, Academy, Instructor etc .
- Online payment transaction and POS(Point Of Sale Transaction) System.
- Built REST APIs using Spring Boot for mobile users of UAE-based **Golf Association of Dubai**.
- Involved in the full life cycle of the project including analysis design, development debugging, testing, and deployment.
- Follow MVC design pattern daily for write Unit Test case and maintainable code

## Responsibilities

- To create and share the data contracts based on the requirement for different teams [Internal / External].
- Responsible to troubleshoot and fix the internal and production issues.
- Building an MBAAS system, worked on third party API's and providing the re structured API's to the app.
- Interacting with client to understand the project and finalize it's scope.
- Was responsible to have the Coding standards followed by binding to the agreed security measures.
- Estimation, design and development of various modules. Ensuring smooth delivery of the project.
