WORK EXPERIENCE

Software Engineer

Mar 2024 - Present

P360

Remote, India

- Led multiple projects, including the **HCP Finder Tool** and **Interactive Visual Aids (IVA)**, consistently receiving client appreciation for successful execution and quality outcomes.
- Expertly translated complex product requirements into functional, high-performance user interfaces, ensuring seamless integration and superior user experience across various platforms.
- Utilized **Azure** to deploy robust websites and various technologies, created **REST APIs** that met product requirements. This resulted in enhanced scalability, reliability, and efficiency, contributing to reduced downtime and faster deployment.

Software Engineer (UI)

Feb 2023 - Jan 2024

POINTCROSS LIFE SCIENCES

Bengaluru, India

- Designed and developed complex user interfaces that simplified tasks for users, improving efficiency and boosting overall productivity and engagement.
- Consistently delivered high-quality solutions within tight deadlines, contributing to increased client trust and long-term collaboration opportunities.

Freelance Frontend Developer

Oct 2022 - Jan 2023

TECH2EDGE

Remote, India

- Created responsive layouts with **reusable components**, simplifying code management, reducing future development complexity, and ensuring consistency across all devices.
