WORK EXPERIENCE

Feb 2021 to Present

Front End Developer at Trigain Technology Pvt Ltd

- Developed reusable components using React.js and its ecosystem
- Built complex user interfaces (UIs) using modern web technologies such as HTML5, CSS3, and JavaScript.
- Worked with RESTful APIs to integrate backend functionality into the front-end application.
- Optimized application performance by analyzing and improving rendering times, reducing server response times, and minimizing network requests.
- Collaborated with other developers, product managers, and designers to ensure high-quality delivery of features and products.
- Implemented responsive design to ensure seamless user experiences across multiple devices.
- Used Git for version control and collaborated with other team members using Bitbucket.
- Demonstrated experience in troubleshooting, debugging, and resolving technical issues in a timely manner.

Aug 2017 to Feb 2021

Technical Content Writer at Trigain Technology Pvt Ltd

- Code Math's questions in PHP language.
- Utilized exceptional writing, editing, and proofreading skills to produce engaging and error-free content.
- Followed company policies and editorial guidelines to craft thorough, well-written content.
- Create SVG images for math's questions and use HTML and CSS to design the view of the questions.
