Experience

WebbullIndia

Full Stack Developer, Team Leader - Noida, Uttar Pradesh

10/2021 - Present

- Contributed ideas and suggestions in team meetings and delivered updates on deadlines, designs and enhancements.
 - Mentored and guided employees to foster proper completion of assigned duties.
 - Reviewed code, debugged problems and corrected issues.
 - Built strong relationships with customers through positive attitude and attentive response.
-

Skills

Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Hibernate, Microservices, MYSQL, JavaScript, React JS, Docker, AWS(Deployment), Html and Css

Projects

- **Mobiwindshield** is a glass repairing website which is built in React Js and Spring boot. This website helps customers in repairing their broken glasses by just placing an order on site and booking an Order. I built this whole website single handedly from frontend to backend, from scratch while satisfying all the requirements of the client. <https://dev7969.d3f2utva5amon8.amplifyapp.com/>
 - **DMSVA** is a Employee, Vehicles, Customer and Order Management System. I have built this project using Html, Css and JQuery in frontend and backend is built on Spring Boot. <https://danieltest.d2nicqwebkzbf1.amplifyapp.com/>
 - **LMS System** is a learning management system application which is used for Online learning. We have three Admin Panels in this application namely Institute, Teacher and Student. For students we have built Android and IOS app using Flutter and for web I have built it using React JS. The whole web and Backend part is built by me alone from scratch. I am currently working on this project and it is almost complete.
