## Summary

---

Driven and detail-oriented software engineer with a Bachelor degree in Information Technology (2020-2024). Possess a strong foundation in software development, with a passion for delivering innovative solutions that drive organizational growth and success. Committed to leveraging technical expertise, creativity, and problem solving skills to contribute effectively to impactful projects while embracing continuous learning and professional development.

## Education

---

- **Bachelor of Technology in Information Technology** 2020-24  
*IMS Engineering College* CGPA: 7.12
- **Class XII** 2019-20  
*BSM Public School* Percentage: 63

## Experience

---

- **Associate Software Engineer** April 2024 - Present  
*Normec Verifavia IHM Ltd.*
  - Designed and developed a scalable Web Application Dashboard using **.NET technologies**, tailored for a global user base across **100+ countries**, enabling seamless collaboration between clients and auditing teams.
  - Leveraged **ASP.NET Core MVC** and **RESTful APIs** to develop and maintain a scalable software dashboard, ensuring seamless control, enhanced user experience, and efficient client-server communication.
  - Utilized **SQL Server** for optimized database management, delivering a robust platform that drives productivity and operational excellence.
  - Implemented advanced data visualization techniques to present actionable insights, improving decision-making for stakeholders.
- **Web Developer Intern** 3 months  
*Codesoft*
  - Developed and maintained web pages using **HTML, CSS, JS**, ensuring high performance and responsiveness.
  - Integrated **RESTful APIs** to fetch and display data dynamically, ensuring seamless communication between the front end and back end.

## Projects

---

- **Shipping Dashboard Verifavia**  
*A comprehensive shipping dashboard built for enabling efficient management of shipping operations*
  - Developed a feature-rich dashboard using **.NET framework**, offering operators and auditors an intuitive interface for managing shipping operations.
  - Implemented backend functionality using ASP.NET Core MVC and RESTful APIs to efficiently manage shipping data and enable seamless client-server communication. Leveraged SQL Server for secure data storage, ensuring optimal performance through well-optimized queries for fast and reliable retrieval of shipping information.
- **E-Medicine Website**  
*A website that help user to find any medicine according to their need.*
  - Developed a **.NET Web API** project using **ASP.NET Core**, implementing robust **CRUD** functionality to manage e-medicine data, ensuring seamless user interactions and efficient data handling.
  - Optimized database queries and implemented caching to enhance application performance and reduce latency.

## Technical & Soft Skills

---

**Languages :** C#, ASP.Net MVC, .Net Core, SQL Server, OOPs, HTML,CSS

**Libraries :** React (Library), Tailwind

**Frameworks & Web Development Tools:** ReactJs, VScode, Git

**Soft Skills:** Teamwork, Adaptability, Problem Solving, Self-learning

## Certifications

---

- **.NET Development Certificate**
- **MySQL Certificate**
